	Examiner David H. Chu	Art Unit 2672	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 March 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 15 and 16 have been renumbered 14 and 15.

Election/Restrictions

The inventions are distinct, each from the other because of the following reasons:

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, 14 and 15, drawn to image rotation, classified in class 345, subclass 649.
 - II. Claim 10, drawn to a connecting member with 2 axes, classified in class 361, subclass 686.
 - III. Claims 11-12, drawn to a system with a bus and YUV, RGB conversions, classified in class 345, subclass 604.
 - IV. Claim 13, drawn to displaying an object in the center, classified in class 345, subclass 619.

3. The inventions are distinct, each from the other because:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as in a system that does not include a connecting member with 2 axes, a system with a bus and YUV, RGB conversions or a system displaying an object in the center. Similarly, invention II has separate utility such as in a system that does not include a system for image rotation, a system with a bus and YUV, RGB conversions or a system for displaying an object in the center. Similarly, invention III has separate utility such as in a system that does not include a system for image rotation, a connecting member with 2 axes or a system for displaying an object in the center. Also, invention IV has separate utility such as in a system that does not include a system for image rotation, a connecting member with 2 axes or a system with a bus and YUV, RGB conversions. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. A telephone call was made to Robert C. Colwell on November 1, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Chu whose telephone number is (571) 272-8079. The examiner can normally be reached on M-F 8am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Razavi can be reached on (571) 272-7664. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
